Education

Maharishi Markandeshwar (Deemed to be) University
Bachelor of Technology, Computer Science & Engineering (CGPA: 8.01)

Ambala, Haryana
Sep. 2022 – May 2026

Skills

Languages: Java, Python, JavaScript, HTML/CSS

Technologies & Frameworks: SpringBoot, Node.js, Express.js, BootStrap, Tailwind CSS, ShadCN UI

Databases: MySQL, PostgreSQL, MongoDB, DB2, Sybase

Platforms & Tools: Eclipse IDE, IntelliJ IDEA, VS Code, GitHub, Firebase, Postman, Moderne

Software Fundamentals: Data Structures & Algorithms, OOP, Design Patterns, System Design(Basic)

Soft Skills: Strong Problem Solving & Analytical Thinking, Effective Communication & Collaboration, Team Player

Projects

InveCareer | MongoDB, Express.js, React.js, Node.js, Tailwind CSS, ShadCN UI

March 2025 – June 2025

- Developed a full-stack MERN job portal application with features tailored for both recruiters and job seekers.
 - Implemented key functionalities including job posting, applicant search, application tracking, and secure user authentication.
 - Utilized Node.js to build a high-performance, scalable, and secure backend capable of handling heavy user traffic and large datasets.

BroCode | MongoDB, Express.js, React.js, Node.js, Tailwind CSS, Gemini

May 2025

- AI-powered coding assistant designed to solve DSA problems by providing optimized solutions with detailed time and space complexity analysis. It also clarifies problems, identifies edge cases, and delivers well-explained answers for competitive programming and coding interviews.
 - Built the platform using Node.js and Express.js for the backend and React.js for the frontend, integrating Gemini's API to analyze and enhance code quality.
 - Implemented real-time feedback and automated code reviews using AI-driven insights, significantly improving code efficiency and user productivity.

Internships

Technology Apprentice

August 2025 – Present

Mumbai, India

- Upgraded the existing backend from Java 17 to Java 21, from Springboot 2.x to Springboot 3.4.6 using Moderne.
 - I think I can't disclose more than this.

Full Stack Intern

May 2025 – July 2025

Remote

- Designed and developed the frontend of the firm's Loan Origination System (LOS) using React.js and Tailwind CSS for a responsive and user-friendly interface.
 - Refactored backend services from Go to Node.js and optimized database interactions using PostgreSQL, along with implementing minor enhancements and bug fixes.
